

Tim Haarmann works as an ecotoxicologist in the Ecology Group (ESH-20). Tim specializes in using insects as a model system in understanding the movement of contaminants in the environment. Among other activities, he maintains beehives around the Laboratory as part of a long-term monitoring project. Tim is also involved in many threatened and endangered species projects here at LANL. Tim is the ESH-20 Student Coordinator and is also a Division Student Advisor Alternate. He is a good resource for questions about the Division and Laboratory student programs or general career related questions.
